
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2007

Commission File Number 001-14039

CALLON PETROLEUM COMPANY

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

64-0844345

(I.R.S. Employer
Identification No.)

**200 North Canal Street
Natchez, Mississippi 39120**

(Address of principal executive offices)(Zip code)

(601) 442-1601

(Registrant's telephone number,
including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definitions of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes No

As of August 1, 2007, there were 20,808,254 shares of the Registrant's Common Stock, par value \$0.01 per share, outstanding.

CALLON PETROLEUM COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2007

1. General

The financial information presented as of any date other than December 31, 2006 has been prepared from the books and records of Callon Petroleum Company (the "Company" or "Callon") without audit. Financial information as of December 31, 2006 has been derived from the audited financial statements of the Company, but does not include all disclosures required by U.S. generally accepted accounting principles. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial information for the periods indicated, have been included. For further information regarding the Company's accounting policies, refer to the Consolidated Financial Statements and related notes for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-K filed March 16, 2007. The results of operations for the three-month and six-month periods ended June 30, 2007 are not necessarily indicative of future financial results.

2. Net Income Per Share

Basic net income per common share was computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted net income per common share was determined on a weighted average basis using common shares issued and outstanding adjusted for the effect of common stock equivalents computed using the treasury stock method.

A reconciliation of the basic and diluted net income per share computation is as follows (in thousands, except per share amounts):

	<u>Three Months Ended</u> <u>June 30,</u>		<u>Six Months Ended</u> <u>June 30,</u>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
(a) Net income	<u>\$ 2,581</u>	<u>\$ 12,303</u>	<u>\$ 8,384</u>	<u>\$25,070</u>
(b) Weighted average shares outstanding	20,726	20,314	20,724	19,855
Dilutive impact of stock options	150	247	144	294
Dilutive impact of warrants	335	775	317	1,133
Dilutive impact of restricted stock	<u>91</u>	<u>112</u>	<u>63</u>	<u>106</u>
(c) Weighted average shares outstanding for diluted net income per share	<u>21,302</u>	<u>21,448</u>	<u>21,248</u>	<u>21,388</u>
Basic net income per share (a,b)	\$ 0.12	\$ 0.61	\$ 0.40	\$ 1.26
Diluted net income per share (a,c)	\$ 0.12	\$ 0.57	\$ 0.39	\$ 1.17
Stock options and warrants excluded due to the exercise price being greater than the stock price	77	15	73	15

3. Derivatives

The Company periodically uses derivative financial instruments to manage oil and gas price risk on a limited amount of its future production and does not use these instruments for trading purposes. Settlements of derivative contracts are generally based on the difference between the contract price or prices specified in the derivative instrument and a NYMEX price or other cash or futures index price. Such derivative contracts are accounted for under Statement of Financial Accounting Standards No. 133. "Accounting for Derivative Instruments and Hedging Activities," ("SFAS No. 133"), as amended.

The Company's derivative contracts that are accounted for as cash flow hedges under SFAS 133 are recorded at fair market value and the changes in fair value are recorded through other comprehensive income (loss), net of tax, in stockholders' equity. The cash settlements on these contracts are recorded as an increase or decrease in oil and gas sales. The changes in fair value related to ineffective derivative contracts are recognized as derivative expense (income). The cash settlements on these contracts are also recorded within derivative expense (income).

Cash settlements on effective cash flow hedges during the three-month periods ended June 30, 2007 and 2006 resulted in an increase in oil and gas sales of \$823,000 and \$1.8 million, respectively. Cash settlements on effective cash flow hedges during the six-month periods ended June 30, 2007 and 2006 resulted in an increase in oil and gas sales of \$3.6 million and \$2.5 million, respectively.

Derivative expense of \$30,000 and \$120,000 for three-month and the six-month periods ended June 30, 2006, respectively, represents the amortization of derivative contract premiums.

Listed in the table below are the outstanding derivative contracts as of June 30, 2007:

Collars

Product	Volumes per Month	Quantity Type	Average Floor Price	Average Ceiling Price	Period
Oil	25,000	Bbls	\$65.00	\$83.30	07/07-12/07
Oil	25,000	Bbls	\$65.00	\$94.20	07/07-12/07
Natural Gas	600,000	MMBtu	\$ 8.00	\$12.70	07/07-12/07

[Table of Contents](#)

4. Long-Term Debt

Long-term debt consisted of the following at:

	<u>June 30,</u> <u>2007</u>	<u>December 31,</u> <u>2006</u>
	(In thousands)	
Senior Secured Credit Facility (matures July 31, 2010)	\$ —	\$ 35,000
9.75% Senior Notes (due 2010), net of discount	190,907	189,862
Senior Revolving Credit Facility (due 2014)	200,000	—
Capital lease	—	872
Total debt	<u>390,907</u>	<u>225,734</u>
Less current portion:		
Capital lease	—	213
Long-term debt	<u>\$390,907</u>	<u>\$ 225,521</u>

On August 30 2006, the Company closed on a four-year amended and restated senior secured credit facility with Union Bank of California (“UBOC”), N.A. The borrowing base, which is reviewed and redetermined semi-annually, was \$50 million at June 30, 2007. Borrowings under the credit facility are secured by mortgages covering the Company’s major fields excluding Entrada. As of June 30, 2007, there were no borrowings under the facility.

On April 18, 2007, Callon closed the Entrada acquisition contemporaneous with a seven-year \$200 million senior revolving credit facility arranged by Merrill Lynch Capital Corporation, which is secured by a lien on the Entrada properties. Borrowings outstanding under the facility bear interest at a rate of LIBOR plus 7%. The Company borrowed the full commitment amount under the facility at closing to cover the required \$150 million payment to BP Exploration and Production Company (“BP”) and expenses and fees related to the transaction and the balance was used to pay down the Company’s UBOC senior secured credit facility. Callon’s UBOC senior secured credit facility was amended to allow for this transaction. The amendment included a provision which reduced the borrowing base under the UBOC facility to \$50 million until the next borrowing base redetermination date. See Note 7 for more discussion on the Entrada acquisition.

[Table of Contents](#)

5. Comprehensive Income

A summary of the Company's comprehensive income is detailed below (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net income	\$ 2,581	\$ 12,303	\$ 8,384	\$25,070
Other comprehensive income (loss):				
Change in fair value of derivatives	80	1,019	(5,841)	2,294
Total comprehensive income	<u>\$ 2,661</u>	<u>\$ 13,322</u>	<u>\$ 2,543</u>	<u>\$27,364</u>

6. Asset Retirement Obligations

The following table summarizes the activity for the Company's asset retirement obligations:

	Six Months Ended June 30, 2007
Asset retirement obligation at beginning of period	\$ 41,179
Accretion expense	2,055
Liabilities incurred	315
Liabilities settled	(8,621)
Revisions to estimate	(318)
Asset retirement obligation at end of period	34,610
Less: current asset retirement obligation	(11,083)
Long-term asset retirement obligation	<u>\$ 23,527</u>

Assets, primarily U.S. Government securities, of approximately \$6.4 million at June 30, 2007, are recorded as restricted investments. These assets are held in abandonment trusts dedicated to pay future abandonment costs for several of the Company's oil and gas properties.

7. Entrada Acquisition

On April 18, 2007, the Company completed an acquisition of BP's 80% working interest in the Entrada Field for a purchase price of \$190 million. The purchase price included \$150 million payable at closing and an additional \$40 million payable after the achievement of certain production milestones. The purchased interests included five federal offshore blocks at Garden Banks Blocks 738, 782, 785, 826 and 827, subject to certain depth limitations. As a result of the acquisition, Callon owns a 100% working interest in the Entrada Field and is operator. The acquisition added 150 billion cubic feet of natural gas equivalent (Bcfe) to Callon's proved undeveloped reserves.

Table of Contents

The acquisition was recorded at fair value based on the initial purchase price of \$150 million. The Company may record the additional \$40 million as additional purchase price in the future when the production milestones are achieved, in accordance with the terms of the agreement.

To finance the initial \$150 million payment of the purchase price, Callon closed on a seven-year \$200 million senior revolving credit facility arranged by Merrill Lynch Capital Corporation contemporaneous with the closing of the acquisition, which is secured by a lien on the Entrada properties. The Company borrowed the full commitment amount under the facility at closing to cover the required \$150 million payment to BP and expenses and fees related to the transaction and the balance was used to pay down our UBOC senior secured credit facility.

8. Accounting for Uncertainty in Income Taxes

Callon adopted Financial Accounting Standards Board (“FASB”) Interpretation No. 48 “Accounting for Uncertainty in Income Taxes” (“FIN 48”), effective January 1, 2007. FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Company had no significant unrecognized tax benefits at the date of adoption or at June 30, 2007. Accordingly, the Company does not have any interest or penalties related to uncertain tax positions. However, if interest or penalties were to be incurred related to uncertain tax positions, such amounts would be recognized in income tax expense. Tax periods for all years after 1978 remain open to examination by the federal and state taxing jurisdictions to which the Company is subject.

9. Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standard No. 157, (“SFAS 157”), Fair Value Measurements. SFAS 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently reviewing the provisions of SFAS 157 and has not yet determined the impact of adoption.

In February 2007, the FASB issued Statement of Financial Accounting Standard No. 159 “The Fair Value Option for Financial Assets and Liabilities — Including an amendment of FASB No. 115” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement is effective for fiscal years beginning after November 15, 2007, with early adoption allowed. The Company has not yet determined the impact, if any, the adoption of this standard may have on its financial condition or results of operations.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical facts included in this report, including statements regarding our financial position, adequacy of resources, estimated reserve quantities, business strategies, plans, objectives and expectations for future operations and covenant compliance, are forward-looking statements. We can give no assurances that the assumptions upon which such forward-looking statements are based will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations ("Cautionary Statements") are disclosed in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for our most recent fiscal year, elsewhere in this report and from time to time in other filings made by us with the Securities and Exchange Commission. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified by the Cautionary Statements.

General

Our revenues, profitability, future growth and the carrying value of our oil and gas properties are substantially dependent on prevailing prices of oil and gas, our ability to find, develop and acquire additional oil and gas reserves that are economically recoverable and our ability to develop existing proved undeveloped reserves. Our ability to maintain or increase our borrowing capacity and to obtain additional capital on attractive terms is also influenced by oil and gas prices. Prices for oil and gas are subject to large fluctuations in response to relatively minor changes in the supply of and demand for oil and gas, market uncertainty and a variety of additional factors beyond our control. These factors include weather conditions in the United States, the condition of the United States economy, the actions of the Organization of Petroleum Exporting Countries, governmental regulations, political stability in the Middle East and elsewhere, the foreign supply of oil and gas, the price of foreign imports and the availability of alternate fuel sources. Any substantial and extended decline in the price of oil or gas would have an adverse effect on the carrying value of our proved reserves, borrowing capacity, revenues, profitability and cash flows from operations. We use derivative financial instruments for price protection purposes on a limited amount of our future production, but do not use derivative financial instruments for trading purposes.

The following discussion is intended to assist in an understanding of our historical financial position and results of operations. Our historical financial statements and notes thereto included elsewhere in this quarterly report contain detailed information that should be referred to in conjunction with the following discussion.

Liquidity and Capital Resources

Our primary sources of capital are cash flows from operations, borrowings from financial institutions and the sale of debt and equity securities. On June 30, 2007, we had net cash and cash equivalents of \$29 million and \$50 million of availability under our UBOC senior secured credit facility. Cash provided from operating activities during the six-month period ended June 30, 2007 totaled \$70 million, a 7% decrease when compared to 2006. The decrease was primarily attributable to an increase in interest expense resulting from the seven-year \$200 million senior revolving credit facility discussed below, an increase in lease operating expenses resulting from new properties coming online and a reduction in revenues primarily due to gas pricing. Net capital expenditures from the cash flow statement, excluding the Entrada acquisition, for the six-month period ended June 30, 2007 totaled \$51 million.

Our capital expenditure budget for 2007, including capitalized interest and general and administrative expenses, will require approximately \$125 million of funding. We expect that available cash and cash flows generated from operations during 2007 along with current availability under our UBOC senior secured credit facility will provide the capital necessary to fund these capital expenditures as well as our asset retirement obligations which are expected to be approximately \$2 million. See the Capital Expenditures section below for a more detailed discussion of our anticipated capital expenditures for 2007.

On April 18, 2007, we closed the Entrada acquisition contemporaneous with a seven-year \$200 million senior revolving credit facility arranged by Merrill Lynch Capital Corporation, which is secured by a lien on the Entrada properties. We borrowed the full commitment amount under the facility at closing to cover the required \$150 million payment to BP and expenses and fees related to the transaction, and the balance was used to pay down our UBOC senior secured credit facility and for general corporate purposes.

On August 30, 2006, we closed on a four-year amended and restated senior secured credit facility with UBOC. The borrowing base, which is reviewed and redetermined semi-annually, was \$50 million at June 30, 2007. Borrowings under the UBOC senior secured credit facility are secured by mortgages covering our major fields excluding Entrada. Our UBOC senior secured credit facility was amended to allow for the financing arranged to acquire BP's interest in the Entrada Field. See Entrada Acquisition below for further discussion about the acquisition.

The Indenture governing our 9.75% Senior Notes due 2010 and our senior secured credit facility with UBOC contain various covenants, including restrictions on additional indebtedness and payment of cash dividends. In addition, our senior secured credit facility contains covenants for maintenance of certain financial ratios. We were in compliance with these covenants at June 30, 2007. See Note 7 of the Consolidated Financial Statements for the year ended December 31, 2006 included in our Annual Report on Form 10-K filed March 16, 2007 for a more detailed discussion of long-term debt.

	<u>\$407,527</u>	<u>\$ 2,865</u>	<u>\$ 4,530</u>	<u>\$200,081</u>	<u>\$200,051</u>

Capital Expenditures

Capital expenditures from the cash flow statement, excluding the Entrada acquisition, were \$51 million for the six months ended June 30, 2007. Of this amount, approximately \$44 million was for exploration and development costs incurred during the first half of 2007 and the remaining \$7 million related to payment of accrued capital costs incurred in 2006.

Included in the \$44 million for exploration and development costs related to oil and gas properties was approximately \$18 million of costs for the Gulf of Mexico Shelf Area, which included drilling costs associated with three wells and completion and development of our 2006 discoveries. In addition, we incurred \$8 million of costs for the Gulf of Mexico Deepwater Area which included development drilling cost at our Habanero field. Interest of approximately \$3 million and general and administrative costs allocable directly to exploration and development projects of approximately \$5 million were capitalized for the first six months of 2007. The remainder of the capital expended primarily includes the acquisition of seismic and leases.

Capital expenditures for the remainder of 2007 are forecast to be approximately \$81 million and include:

- development wells and discretionary drilling of exploratory wells;
- Entrada development costs;
- the acquisition of seismic and leases; and
- capitalized interest and general and administrative costs.

In addition, we are projecting to spend \$2 million for the remainder of 2007 for asset retirement obligations.

[Table of Contents](#)

Entrada Acquisition

On April 18, 2007, we completed an acquisition with BP to purchase its 80% working interest in the Entrada Field for a purchase price of \$190 million. The purchase price included \$150 million payable at closing and an additional \$40 million payable after the achievement of certain production milestones. The purchased interests included five federal offshore blocks at Garden Banks Blocks 738, 782, 785, 826 and 827, subject to certain depth limitations. As a result of the acquisition, we own a 100% working interest in the Entrada Field and are operator. The acquisition added 150 Bcfe to our proved undeveloped reserves.

The acquisition was recorded at fair value based on the initial purchase price of \$150 million. We may record the additional \$40 million as additional purchase price in the future when the production milestones are achieved, in accordance with the terms of the agreement.

To finance the initial \$150 million payment of the purchase price, we closed on a seven-year \$200 million senior revolving credit facility arranged by Merrill Lynch Capital Corporation contemporaneous with the closing of the acquisition, which is secured by a lien on the Entrada properties. We borrowed the full commitment amount under the facility at closing to cover the required \$150 million payment to BP and expenses and fees related to the transaction, and the balance was used to pay down our UBOC senior secured credit facility and for general corporate purposes.

Our UBOC senior secured credit facility was amended to allow for the Merrill Lynch Capital Corporation financing. The amendment included a provision which reduced the borrowing base under the UBOC facility to \$50 million until the next borrowing base redetermination date.

Off-Balance Sheet Arrangements

We have a 10% ownership interest in Medusa Spar LLC ("LLC"), which is a limited liability company that owns a 75% undivided ownership interest in the deepwater Spar production facilities on our Medusa Field in the Gulf of Mexico. We contributed a 15% undivided ownership interest in the production facility to the LLC in return for approximately \$25 million in cash and a 10% ownership interest in the LLC. The LLC will earn a tariff based upon production volume throughput from the Medusa area. We are obligated to process our share of production from the Medusa Field and any future discoveries in the area through the Spar production facilities. This arrangement allows us to defer the cost of the Spar production facility over the life of the Medusa Field. Our cash proceeds were used to reduce the balance outstanding under our senior secured credit facility. The LLC used \$83.7 million of cash proceeds from non-recourse financing and a cash contribution by one of the LLC owners to acquire its 75% interest in the Spar. The balance of Medusa Spar LLC is owned by Oceaneering International, Inc. and Murphy Oil Corporation. We are accounting for our 10% ownership interest in the LLC under the equity method.

Results of Operations

The following table sets forth certain unaudited operating information with respect to the Company's oil and gas operations for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net production :				
Oil (MBbls)	263	443	551	958
Gas (MMcf)	3,341	2,581	7,043	4,530
Total production (MMcfe)	4,920	5,239	10,348	10,281
Average daily production (MMcfe)	54.1	57.6	57.2	56.8
Average sales price:				
Oil (Bbls) (a)	\$ 61.47	\$ 59.99	\$ 58.36	\$ 56.74
Gas (Mcf)	8.17	7.93	8.07	8.44
Total (Mcf)	8.84	8.98	8.60	9.01
Oil and gas revenues:				
Oil revenue	\$ 16,178	\$ 26,580	\$32,146	\$54,379
Gas revenue	27,296	20,477	56,812	38,259
Total	<u>\$ 43,474</u>	<u>\$ 47,057</u>	<u>\$88,958</u>	<u>\$92,638</u>
Oil and gas production costs:				
Lease operating expenses	\$ 8,613	\$ 7,365	\$15,212	\$13,270
Additional per Mcfe data:				
Sales price	\$ 8.84	\$ 8.98	\$ 8.60	\$ 9.01
Lease operating expense	1.75	1.41	1.47	1.29
Operating margin	<u>\$ 7.09</u>	<u>\$ 7.57</u>	<u>\$ 7.13</u>	<u>\$ 7.72</u>

General and administrative (net of management fees)	\$ 0.46	\$ 0.37	\$ 0.43	\$ 0.36

(a) Below is a reconciliation of the average NYMEX price to the average realized sales price per barrel of oil:

Average NYMEX oil price	\$ 65.00	\$ 70.70	\$ 61.63	\$ 67.09
Basis differential and quality adjustments	(2.85)	(7.83)	(4.18)	(7.93)
Transportation	(1.14)	(1.29)	(1.14)	(1.28)
Hedging	0.46	(1.59)	2.05	(1.14)
Average realized oil price	<u>\$ 61.47</u>	<u>\$ 59.99</u>	<u>\$ 58.36</u>	<u>\$ 56.74</u>

Comparison of Results of Operations for the Three Months Ended June 30, 2007 and the Three Months Ended June 30, 2006.

Oil and Gas Production and Revenues

Total oil and gas revenues decreased to \$43.5 million in the second quarter of 2007 compared to \$47.1 million in the second quarter of 2006. Total production on an equivalent basis for the second quarter of 2007 decreased by 6% compared to the second quarter of 2006.

Gas production during the second quarter of 2007 totaled 3.3 billion cubic feet of gas (Bcf) and generated \$27.3 million in revenues compared to 2.6 Bcf and \$20.5 million in revenues during the same period in 2006. The average gas price after hedging impact for the second quarter of 2007 was \$8.17 per thousand cubic feet of natural gas ("Mcf") compared to \$7.93 per Mcf for the same period last year. The 29% increase in 2007 production was primarily attributable to 2005 and 2006 discoveries being brought online after the second quarter of 2006. The increase was partially offset by the sale of our Mobile Bay 952,953,955 field, early water production from our East Cameron 90 and North Padre Island 913 fields and normal and expected declines in production from our Habanero, High Island Block 119 and Mobile Bay 864 fields and older properties. In addition, remedial work with wireline and coil tubing was performed to correct mechanical problems on the A-1 well at Medusa and resulted in production being restored at a lower rate.

Oil production during the second quarter of 2007 totaled 263,000 barrels and generated \$16.2 million in revenues compared to 443,000 barrels and \$26.6 million in revenues for the same period in 2006. The average oil price received after hedging impact in the second quarter of 2007 was \$61.47 per barrel compared to \$59.99 per barrel in the second quarter of 2006. The 41% decrease in production was due to the normal and expected declines from our Habanero Field and older properties. In addition, remedial work with wireline and coil tubing was performed to correct mechanical problems on the A-1 well at Medusa and resulted in production being restored at a lower rate.

Lease Operating Expenses

Lease operating expenses were \$8.6 million for the three-month period ended June 30, 2007, a 17% increase when compared to the same period in 2006. The increase was primarily due to operating costs associated with our 2005 and 2006 discoveries that had not commenced production until after the second quarter of 2006. The increase was partially offset due to the sale of the Mobile Bay 952,953,955 field effective May 1, 2007, lower throughput charges at Habanero and the shut-in of our South Marsh Island 261 field, which is scheduled to be plugged and abandoned.

Depreciation, Depletion and Amortization

Depreciation, depletion and amortization for the three months ended June 30, 2007 and 2006 was \$18.8 million and \$14.8 million, respectively. The 27% increase was due to a higher depletion rate resulting from higher costs associated with our exploration and development activities in the Gulf of Mexico and the downward revision of Entrada reserves in the fourth quarter of 2006.

Accretion Expense

Accretion expense for the three-month periods ended June 30, 2007 and 2006 of \$943,000 and \$1.3 million, respectively, represents accretion of our asset retirement obligations. See Note 6 to the Consolidated Financial Statements.

General and Administrative

General and administrative expenses, net of amounts capitalized, were \$2.3 million and \$1.9 million for the three-month periods ended June 30, 2007 and 2006, respectively. The 18% increase was a result of additions to our staff and higher compensation costs, which included non-cash charges that were recognized in the second quarter of 2007 for the amortization of compensation expense related to restricted stock awards issued during the third quarter of 2006. The vesting period for these awards is four years.

Table of Contents

Interest Expense

Interest expense increased to \$9.2 million during the three months ended June 30, 2007 compared to \$4.1 million during the three months ended June 30, 2006. This increase was due to the new debt associated with the Entrada acquisition. See Note 4 and 7 for more details.

Income Taxes

Income tax expense was \$1.3 million and \$6.3 million for the three-month periods ended June 30, 2007 and 2006, respectively. The decrease was due to a decrease in income before income taxes.

Comparison of Results of Operations for the Six Months Ended June 30, 2007 and the Six Months Ended June 30, 2006.

Oil and Gas Production and Revenues

Total oil and gas revenues decreased to \$89.0 million in the first six months of 2007 compared to \$92.6 million in the same period in 2006. Total production on an equivalent basis during six-month period ended June 30, 2007 remained consistent with the six-month period ended June 30, 2006 at 10.3 billion cubic feet of natural gas equivalent.

Gas production during the first half of 2007 totaled 7.0 Bcf and generated \$56.8 million in revenues compared to 4.5 Bcf and \$38.3 million in revenues during the same period in 2006. The average gas price after hedging impact for the six months ended June 30, 2007 was \$8.07 per Mcf compared to \$8.44 per Mcf for the same period in 2006. The 55% increase in 2007 production was primarily attributable to 2005 and 2006 discoveries being brought online after the second quarter of 2006. The increase was partially offset by the sale of Mobile Bay 952,953,955 field in the second quarter of 2007, early water production from East Cameron Block 90 and normal and expected declines in production from our Habanero, High Island Block 119 and Mobile Bay area fields and older properties. In addition, remedial work with wireline and coil tubing was performed to correct mechanical problems on the A-1 well at Medusa and resulted in production being restored at a lower rate.

Oil production during the six months ended June 30, 2007 totaled 551,000 barrels and generated \$32.1 million in revenues compared to 958,000 barrels and \$54.4 million in revenues for the same period in 2006. The average oil price received after hedging impact for the six-month period ended June 30, 2007 was \$58.36 per barrel compared to \$56.74 per barrel during the same period in 2006. The 43% decrease in production was due to the normal and expected declines from our Habanero Field and older properties. In addition, remedial work with wireline and coil tubing was performed to correct mechanical problems on the A-1 well at Medusa and resulted in production being restored at a lower rate.

Lease Operating Expenses

Lease operating expenses were \$15.2 million for the six-month period ended June 30, 2007, a 15% increase when compared to the same period in 2006. The increase was primarily due to operating cost associated with our 2005 and 2006 discoveries that had not commenced production until after the second quarter of 2006. The increase was partially offset due to the sale of the Mobile Bay 952,953,955 field effective May 1, 2007, lower throughput charges at Habanero and the shut-in of our South Marsh Island 261 field, which is scheduled to be plugged and abandoned.

[Table of Contents](#)

Depreciation, Depletion and Amortization

Depreciation, depletion and amortization for the six-months ended June 30, 2007 and 2006 was \$40.7 million and \$28.6 million, respectively. The 42% increase was due to a higher depletion rate resulting from higher costs associated with our exploration and development activities in the Gulf of Mexico and the downward revision of Entrada reserves in the fourth quarter of 2006.

Accretion Expense

Accretion expense for the six-month periods ended June 30, 2007 and 2006 of \$2.1 million and \$2.8 million, respectively, represents accretion of our asset retirement obligations. See Note 6 to the Consolidated Financial Statements.

General and Administrative

General and administrative expenses, net of amounts capitalized, were \$4.5 million and \$3.7 million for the six-month periods ended June 30, 2007 and 2006, respectively. The 23% increase was a result of additions to our staff and higher compensation costs, which included non-cash charges that were recognized in the six-month period ended June 30, 2007 for the amortization of compensation expense related to restricted stock awards issued during the third quarter of 2006. The vesting period for these awards is four years.

Interest Expense

Interest expense increased to \$13.8 million during the six months ended June 30, 2007 compared to \$8.3 million during the six months ended June 30, 2006. The increase was due to the new debt associated with the Entrada acquisition. See note 4 and 7 for more details.

Income Taxes

Income tax expense was \$5.1 million and \$12.8 million for the six-month periods ended June 30, 2007 and 2006, respectively. The decrease was primarily due to a decrease in income before income taxes.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Commodity Price Risk

The Company's revenues are derived from the sale of its crude oil and natural gas production. The prices for oil and gas remain extremely volatile and sometimes experience large fluctuations as a result of relatively small changes in supply, weather conditions, economic conditions and government actions. From time to time, the Company enters into derivative financial instruments to manage oil and gas price risk.

The Company may utilize fixed price "swaps," which reduce the Company's exposure to decreases in commodity prices and limit the benefit the Company might otherwise have received from any increases in commodity prices.

The Company may utilize price "collars" to reduce the risk of changes in oil and gas prices. Under these arrangements, no payments are due by either party as long as the market price is above the floor price and below the ceiling price set in the collar. If the price falls below the floor, the counter-party to the collar pays the difference to the Company, and if the price rises above the ceiling, the counter-party receives the difference from the Company.

Callon may purchase "puts" which reduce the Company's exposure to decreases in oil and gas prices while allowing realization of the full benefit from any increases in oil and gas prices. If the price falls below the floor, the counter-party pays the difference to the Company.

The Company enters into these various agreements from time to time to reduce the effects of volatile oil and gas prices and does not enter into derivative transactions for speculative purposes. However, certain of the Company's derivative positions may not be designated as hedges for accounting purposes.

See Note 3 to the Consolidated Financial Statements for a description of the Company's outstanding derivative contracts at June 30, 2007.

Interest Rate Risk

The Company's \$200 million senior revolving credit facility arranged by Merrill Lynch Capital Corporation bears interest at a variable LIBOR based rate. As a result, an increase in LIBOR would increase the interest cost associated with this facility and would have a negative impact on the Company's results of operations and cash flows. As of June 30, 2007, the Company had \$200 million of borrowings outstanding under this facility. The Company currently has no interest rate hedge positions to reduce its risk associated with changes in interest rates. See Note 4 to the Consolidated Financial Statements for a description of the Company's outstanding debt at June 30, 2007.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. The Company's principal executive and principal financial officers have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were effective as of June 30, 2007.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

CALLON PETROLEUM COMPANY

PART II. OTHER INFORMATION

Item 4. SUBMISSION OF MATTERS TO A VOTE OF THE SECURITY HOLDERS

The Company held its annual meeting of shareholders on May 3, 2007. At the annual meeting, one Class I director of the board of directors of the Company was elected to hold office until the Company's annual meeting of shareholders in 2010 or until his respective successors has been duly elected and qualified. The votes cast for the director proposed in the Company's definitive proxy statement on Schedule 14A, out of a total of 20,750,449 shares outstanding on the record date for the annual meeting, and were as follows:

		<u>For</u>	<u>Withheld</u>
John C. Wallace	Class I	18,622,498	227,207

There were no abstentions, votes against or broker non-votes cast with respect to the election of the director.

The shareholders of the Company ratified the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for 2007. There were 18,826,865 votes in favor and 22,840 votes against or abstained. There were no votes withheld or broker non-votes with respect to the ratification of the appointment of Ernst & Young LLP.

CERTIFICATIONS

I, Fred L. Callon, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Callon Petroleum Company;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
-

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATIONS

I, B.F. Weatherly, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Callon Petroleum Company;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
-

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
